(+86) 15815489499

Address
Renmin University of China

莫文仪

Education

2022至今，中国人民大学
MS in Artificial Intelligence (Second-class scholarship)

2018 - 2022, 华南理工大学
BS in Computer Science (National scholarship, GPA 3.91/4.0)

Publications

Wenyi Mo, Heng Zhang, Jiangmeng Li, Bing Su, and Ji-Rong Wen. "EDIT: Efficient Text-Driven Real Image Manipulation with Diffusion Models", In submission.

- 根据目标文本，编辑源图像。我们利用去噪过程中的*cross attention maps*生成*source-aware prompts*和*edit-aware keywords*来指导扩散模型。在去噪过程中，注入*edit-aware keywords*对应的的*attention maps*，并通过比较*source-aware prompts*和目标文本之间的扩散模型预测，自动生成*soft mask*指导生成，来平衡语义表达和保真度。

Wenyi Mo, Bing Su, and Ji-Rong Wen."Automatic Prompt Editing for Improved Text-to-Image Generation via Reinforcement Learning", In submission.

- 对于*Text-to-Image model*，我们的目标是使得编辑过后的提示对应的生成图片能更符合人类审美。给定一个源提示，我们使用奖励网络来预测考虑图像质量和语义对齐的奖励，并使用编辑网络来生成以奖励为条件的所需提示。

Jiangmeng Li*, **Wenyi Mo***, Wenwen Qiang, Bing Su, and Changwen Zheng. "Supporting Vision-Language Model Inference with Causality-pruning Knowledge Prompt", In submission.

- 我们提出了因果剪枝的知识提示，它通过将文本标签作为查询来检索本体知识图谱，以探索与任务相关的语义信息。

Jiangmeng Li, Wenwen Qiang, Yanan Zhang, **Wenyi Mo**, Changwen Zheng, Bing Su, and Hui Xiong. "MetaMask: Revisiting Dimensional Confounder for Self-Supervised Learning", NeurIPS 2022.

Experience

May 2022 - Aug 2022, *Algorithm Engineer*, Kushim Intelligence
使用YOLOv5完成文档对象检测任务。

Jan 2022 - Mar 2022, *Algorithm Engineer*, Jingdong
使用多模态预训练模型CLIP进行zero-shot人脸数据集的语义分割。

Research Interests

Image Generation, Multimodality Learning, Diffusion Model, Prompt Learning

Skills

Programming: Python, PyTorch, C++, C, LaTeX
